SUMMARY

Results-oriented Data Analyst with 2+ years of experience in Tableau, Data visualizations, Power BI, transforming complex data into actionable insights. Experienced in developing dynamic dashboards, improving data accuracy and accessibility, and collaborating with stakeholders to drive informed business decisions.

SKILLS & STRENGTHS

- Tableau
- SQL
- Teradata
- Power BI
- Micro Strategy
- Datawarehouse
- Problem-solving
- Leadership
- Time Management

WORK EXPERIENCE

Cognizant | Data Analyst | July 2022 - Present

Project 1: Truist

- Developed and delivered Tableau, Micro strategy reports based on user requirements provided in ServiceNow tickets, ensuring accurate and insightful data visualization.
- Ensured high-quality standards in report development, adhering to best practices in design, functionality, and user experience.
- Conducted thorough unit testing to ensure data accuracy, functionality, and performance, while troubleshooting and resolving report issues to ensure timely delivery and minimize production disruptions
- Collaborated with stakeholders to understand business requirements and translate them into actionable reporting solutions.
- Migrated SAS SQL queries to EDL (Toad Hive SQL) by translating syntax, validating data consistency, optimizing performance, and ensuring seamless execution.
- Collaborated with cross-functional teams to resolved schema discrepancies, documented the conversion process, and provided post-migration support for a smooth transition.

Project 2: H-E-B

- Gathered and analyzed business requirements, identifying existing business models and customer needs, and translating them into scalable technical solutions.
- Designed and developed interactive dashboards with diverse visualizations to provide clear actionable insights aligned with business objectives.
- Utilized advanced Tableau features such as action filters, parameters, and calculated fields to create dynamic reports, enabling stakeholders to detailed business insights effectively.
- Extracted, transformed, and managed data using SQL queries and Teradata, ensuring seamless data integration from SQL Server and Teradata for accurate and efficient reporting.
- Optimized tableau dashboards by structuring data with Teradata schemas, tables, and views, resolving performance bottlenecks, and improving data accessibility and report reporting.
- Published and maintained Tableau reports with automated data refresh schedules, ensuring the availability of real-time, accurate business intelligence for key decision-makers.
- Collaborated with stakeholders and cross-functional teams to define KPIs, refine technical requirements, and successfully deploy Tableau solutions, integrating them seamlessly into existing business processes.

ACHIVEMENTS

Emerging Talent(Q3 Awards, 2023)

- Always striving, Never setting

Appreciation from HEB Stakeholders(2024)

- Clearing highly complex and complicated deliverables on time.

EDUCATION

- B.E | R.M.K Engineering College | 2018 - 2022 | CGPA - 8.53
- HSC | R.M.K Matric Higher Secondary School | 2016 - 2017 | Percentage - 64%

CERTIFICATIONS

- Microsoft certified: Power BI Data Analyst Associate (PL-300)
- Microsoft certified: Azure Fundamentals (AZ-900)
- Microsoft certified: Azure Data Fundamentals (DP-900)
